Joe,

I am back in the office and understand that we were not the vendor of choice for the local PRI's. I would like to opportunity, prior to the rush of eRate, to share with your IT team the non-traditional network solutions that PAETER provides the K-12 and government industry.

Let me know what time you have available Wednesday 3/25/09.

Enjoy spring break.

Joe,

We are wrapping up our final numbers to present to you. Our question that we have for you is regarding installation. Will your circuit changes be installed with internal staff or will you require an external vendor to take care of your internal circuit changes? We have

additional installation funds available that will allow us to absorb some of the vendor expense. Please let me know this morning what your process is for the migration of services and an estimate of the external cost, if applicable.

Thanks,

Joe & Myla,

I wanted to provide you with the standard documents needed by the school districts. This includes PAETEC Standard T &C, SLA for Local PRI, and both of our escalation lists for customer care and our network operations center. Further details to come.

Thanks,

Joe,

Thank you for forwarding this to me.

I don't see in the information how many copies you want. Also, do you want a soft copy on a CD?

We will deliver our proposal prior to 3pm.

Mark,

I sent this to Mary this morning. I'm glad that she had an out of office reply, because I forgot that she would be out for awhile.

Attached is a copy of our bid request as posted on our website. The sealed bids will be due before 3:00 PM on February 4th, 2009. They will be publicly opened at 3:00 PM on the 4th.

Purchasing indicates broadband service, but we're really just looking for the point to point voice T1s, as we had discussed earlier.

Thanks,

Joe
